

HDPE tubes

HDPE made from high-quality HDPE material and closed by an HDPE flip-top. Together they form a **mono-material packaging** with up to **45% less plastic in the tube body!**

Tubes are suitable for PE recycling streams.

HDPE is a material known for excellent elastic properties, suitable for many products like cosmetic and pharmaceutical creams and balms.

Properties:

- PBL 220-300 µm specification
- available sizes dia: 19, 30, 35, 40, 50 mm
- various types of material in terms of barrier, thickness, visual effects
- available different closure types
- high print quality (360° seamless printing with Decoseam™)
- many embellishment possibilities (silk screen, cold stamping)
- Flexo UV Low Migration printing

PCR tubes

PCR tube (Post-Consumer Recycled) made from components which contain consumer recycled plastic.

The use of PCR recycle reduces the amount of new plastics in our environment. No new resource extraction is needed! PCR tubes are **easy recyclable**.

Properties:

- PBL 220-300 µm specification
- available sizes dia: 19, 30, 35, 40, 50 mm
- various types of material in terms of barrier, thickness, visual effects
- available different closure types
- high print quality (360° seamless printing with Decoseam™)
- many embellishment possibilities (silk screen, cold stamping)
- Flexo UV Low Migration printing

Green tubes 220/300 µm

New **mono-material eco tube** with high barrier properties, protecting special product categories.

Properties:

- laminate 220/300 µm
- recyclable in HDPE (coloured) bottle stream and material saving opportunity up to 37%
- tube laminate with high barrier for specific products and requirements
- RecyClass approved - recyclable in HDPE (coloured) bottle stream
- perfect opportunity for healthcare products and cosmetics
- cost opportunity by saving plastic
- improved stiffness and barrier
- very high opacity
- white and silver version available
- special coated laminate
