# Laminate tubes

Laminate tube is a packaging format which popularity is still growing. It has found applications in the cosmetics, pharmaceutical, food, household chemical, construction, and automotive industries.

It perfectly **protects the contents** against the effects of external factors such as light or moisture.
As a result, the filling retains its color, aroma, texture, and properties for a long time.

We offer laminate tubes printed with the virtually invisible seam - **360° print Decoseam™** (in the case of other techniques, a tab may appear at the joint).

**360° print
and invisible seam Decoseam™**

other print standards

Laminate tubes

Why Formika?

- **short delivery terms** - reprints with standard components available within 3–5 weeks
- **small MOQ -** 10,000 pcs/ artwork
- **invisible seam of the laminate** - 360° seamless printing with Decoseam™
- **silk screen** embellishment with 2 sections
- **the most sophisticated Flexo UV machine** with 11 printing sections (9 colors plus primer and varnish)
- **lacquering** in gloss, mat continuous or partial
- **cold stamping** – silver, gold with possible overprint and holo
- **Flexo UV Low Migration** printing as standard (exception - ultra matt varnish)
- **printing performed** with 100% inline quality control

Cylindrial tubes

| Capacity	Sleeve Lenght				
	Ø 19 mm	Ø 30 mm	Ø 35 mm	Ø 40 mm	Ø 50 mm
10 ml	65 mm
